Work Experience

Web Developer (2022- present)

PT. Mumtaz Technology Indonesia (MTI)
Experienced in enhancing website appearance through the implementation of modern Metronic templates, resulting in visually appealing and responsive user interfaces.

Internship - Web Developer (Feb - Mar 2022)

PT. Mumtaz Technology Indonesia (MTI)
Have successfully brought about positive changes in the system by designing, developing, and integrating innovative features, such as a digital library and an admission logistics system. In my role, I focus on problem-solving and bug fixes, which have resulted in a significant improvement in the stability and performance of the website.
